

Bariatric Mattress

Delta Medical's Bariatric Mattress uses 4 layers of specialised foam, designed to offer maximum support without compromising on comfort.

Foam Specifications

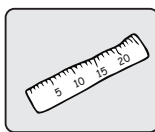

- Delta Medical Bariatric Mattress has been designed using four layers of hospital grade foam. Density, hardness, and depth play a major role in its construction.
- Top surface under the torso has been castellated increasing surface contact area and potentially reducing risk factor while the heel section has a memory foam insert.
- 3 layered foam
